Teamsters Canada Rail Conference – Sarnia

General Comments

TELEPHONES

Only two numbers will be kept on file with the Crew Management Center. A third number will only be entertained as a temporary number and only for a short period. Ten minutes will be allowed for an employee to respond to a pager.

A minimum of two (2) calls must be made to all employees. In the event a call is placed to an employee and an answering machine is encountered. The crew dispatcher will leave a message stating the crew office is calling. A minimum of two calls must be made. Upon the second calls, the crew dispatcher must leave a message stating that the employee has missed a call for a specific, time and date.

In the event that when placing a call to an employee, the responding party indicates that he/she is willing to accept the call on behalf of the called employee, this is permissible. The same calling information and practices are to be conveyed to the answering party that would be given to the employee.

Cellular phones and pagers may be used and practices such as wake up calls, short calls and calls at other locations are entertained. Employees requesting short calls and who fail to respond will have the short call privilege revoked.

NOTE: There is a limit of **10 minutes** for employees to respond to pagers only.

CALLING (YARD SERVICE)

Loc. Engineers who are called for a tour of duty in yard service and are called to protect another yard assignment will be considered as available for a call while at work, disregarding the preparatory and inspection times.

CALLING (ROAD SERVICE)

Sarnia Locomotive Engineers ordered at MacMillan Yard destined to the United States who have not had sufficient rest to comply with the US Hours of Service Act are to be ordered for the assignment and advice must be conveyed to the Southern Ontario District Chief Rail Traffic Controller. The proper officer at Sarnia must also be in receipt of this information to ensure that proper relief is available to protect the service.

Loc. Eng. In road service are governed by the outer switch time for board and placement time in road service and the off duty time in yard service.

SHORT CALLS

At the Home Terminal short calls will be entertained, however, no less than a one-hour call will be entertained.

At the Away From Home Terminal short calls will be entertained, however, no less than a 30-minute call will be entertained at the option of the employee. (art. 60.1 applicable)

Other than cases of emergency Sarnia Locomotive Engineers will be used to protect all freight train and or rescue service from Toronto to Sarnia, as per Addendum 34 (a) 1.1 Agreement.

SPAREBOARD – (Fast board / Slow board)

A fast and slow board has been established to man all vacancies consistent with Article **54.11**. Spare board entitlements for yard and road assignments of 100 miles or less in one direction will be manned from the **FAST** board.

All spare board entitlements for road assignments over 100 miles in one direction will be manned from the **SLOW** board.

This board mans all Road and Yard relief and extra train and yard assignments (including service to Flat Rock/Detroit)

Spare board employees will work up the slow board order until such time as they work a mainline road trip in excess of 100 miles in one direction, or disqualify them for any reason.

When an employee is called for a trip off the slow board, his/her name will come off both boards and will go to the bottom of each board as of the outer switch time of the tour of duty completed.

In the event a Locomotive Engineer is first out on both the Fast and Slow boards and a road and yard assignment is ordered for the same on duty time, the employee will have the choice of vacancies.

Spare board number is maintained by regular 10-day mileage checks. Also article 65.23 is applicable in the number assigned to the board between mileage checks. Spare board is maintained automatically. Auto setup/set back.

(See Mileage)

Engineers spareboard is governed by the outer switch in road service and the off duty time in yard service. Calling is based on the on duty time of the assignment. If the two assignments have the same on duty time, **the employee 1st up** will be given his/her choice.

As per Article 54.12, Locomotive Engineers assigned to the spareboard who are not available when called will have their names placed at the foot of the spareboard twelve (12) hours after the time at which called.

As per Article 54.13, those engineers booking on from being sick or on leave of absence after being off less than 72 hours will not have their names restored to the spareboard until 12 hours after having booked on when their names will be placed at the foot of the spareboard.

SPAREBOARD – (Fast board / Slow board)...continued

As per Article 54.14, those engineers who have been off for more than 72 hours, their names will be placed at the foot of the spareboard as soon as they report for duty.

Spare board locomotive engineers who book in excess of 16 hours rest after the completion of a tour of duty will have their names held off both the Fast and Slow board until the expiration of the rest booked and will be placed on both boards at the expiration time. (Addendum 40E).

This provision does not apply to locomotive engineers who book rest under the provisions of Addendum 104.

Locomotive Engineers displaced from a regular assignment declaring to the spareboard will take their turn from the time they declare.

Locomotive Engineers displaced from temporary vacancies, if declaring to the spareboard will be placed on the spareboard as of the time they declare.

If a spareboard engineer working a Manifest or Drag Pool turn is called and cancelled prior to performing work or is short turned after calling, he/she upon booking in will hold his/her turn on the both boards. However, if he/she is cancelled after being on duty as per article 62.6 they will be placed at the bottom of both boards after booking on.

NOTE: Addendum 40E is applicable to spareboard employees who book in excess of 16 hours rest.

Engineers promoted from the 4.16 agreement to work on the Engineers' spareboard under the 1.1 agreement will establish their turn on the spareboard at the time of promotion.

ORDERING TIMES

All times are based on ON DUTY TIME, not ORDERED TIME. However, if the on duty time of two assignments is identical, the employee 1st up will be given his/her choice of assignments.

If an employee is called to double from one yard assignment to another while at work, the order time for the second assignment would prevail (i.e. work a job at 14:00 and double to a 22:00 job).

Deadheading:

On trains the D/H reports for duty at the ordering time of the train while the working engineer must report for duty prior to ordering time thereby the on duty time would apply.

Should two or more Engineers being deadheaded either east or west and relief is required for a train en route the engineer 1st up at call time will have his choice as to;

- (a) remain to deadhead
- (b) work the train for which relief is required

PREP TIMES

		Engineer	Conductor
Sarnia	- Thru Freight	15 minutes	15 minutes
	- Work trains	Nil	Nil
Toronto	- Ex Shop	15 minutes	15 minutes
	- Ex B.I.T	15 minutes	15 minutes
	- Snider	30 minutes	30 minutes
Niagara Falls	- Freight	15 minutes	15 minutes

Deadheads, work trains, yard assignments, rescues and reliefs (if taxiing from Home Terminal, NO PREP TIME).

ALLOWABLE REST (Regular Assignments)

		MIN	MAX
Home Terminal	Freight	6 hours	24 hours
	Yard	8 hours	12 hours
Away from Home Terminal		1 hour	8 hours

Engineers Spareboard – (Fast board / Slow board) (REST)

Engineers assigned to the Sarnia spareboard may book the following rest;

Freight	6 hours	24 hours
Yard	6 hours	24 hours

Spare board employees taking in excess of 16 hours rest will remain at the bottom of the board until rest has expired. Memorandum of agreement 40 (E) of the 1.1 agreement

NOTE: Pool turns booking rest

When an assigned employee working his assigned turn comes into his/her home terminal and books rest, this rest will hold the employees turn. This provision does not apply when working **extra work.**

LEAVE OF ABSENCE

All leave of absence must be approved by the Local Officers via email. No employee will be booked off without prior consent.

Employees returning to duty from a leave of absence must report at least 3 hours in advance of the reporting time of their regular assignment consistent with Article 54.2 of the 1.1 agreement.

COMPANY BUSINESS

All leave for Company Business must be approved by the Local Officers via email. No employee will be booked off without prior consent. An employee booked off for Company Business will hold his/her turn on the Slow Board but will be removed from the Fast Board for the duration of this off board status. Such employee will be placed at the bottom of the Fast Board at the time he/she books on.

Employees will be afforded the opportunity to book 8 hours rest upon completion. Employees must contact the CMC immediately followed the Company Business to book any rest.

NOTE: Addendum 66 of the 1.1 Agreement for protecting service after attending rules classes.

NOTE: Employees are NOT entitled to rest after attending a medical.

MILEAGE - Spare board:

Mileage checks on the Spareboard are on the 1st, 11th and 21st of each month. Adjustments made to pools or Spare board is mutually done between the designated person within the CMC and the Local Chairman or his designate of the T.C.R.C.

Calculation Factors 10 day check – 1266.66
 11-day check – 1393.32
 8-day check- 01013.60

When an addition or reduction is required additional employees go to the bottom of spareboard in seniority order as of 12 noon on the day of the mileage check, reductions are done in seniority order also as of 12:00 noon.

In the event it is necessary to increase the number of Loc. Engrs on the spareboard, employees who bid the Spare board at the Change of Card, but did not stand for the Spare board will be solicited and given the opportunity to exercise their seniority to the board. This will become those employees new permanent assignment. (Delete on a temporary basis). If an employee refuses during the period of the Change of Card, they will not be offered this opportunity until the next Change of Card. This list will be referred to as the Preferred List and is governed by seniority. Should an employee accept this offer, that employee's vacated position will be advertised as a local permanent vacancy as per article 49 (5days) An automatic spareboard as per article 65.23 is applicable in the number assigned to the board between mileage checks.

MILEAGE – Drag Pool

Mileage checks for the Drag Pool are on the 1st, 11th and 21st of each month. Adjustments made to pools or Spare board is mutually done between the designated person within the CMC and the Local Chairman or his designate of the T.C.R.C.

Calculation Factors 10-day check – 1266.66 8- day check- 01013.60
 11-day check – 1393.32

When additions are made to the Drag Pool, the new turns are to be added to the bottom of the pool at 12 Noon on the day of the mileage check. These additional turns are to be advertised as District to the Terminal for 5 days. They will be considered as new local permanent assignment(s).

Update the additional turns in the turnover sheets in CATS in order to maintain the proper sequence of the turns.

Adjustments made to pools or Spare boards are mutually done between the designated person within the CMC and the Local Chairman or his designate of the T.C.R.C.

PERSONAL MILES Article 65.4

All employees are to count their personal miles on a monthly basis as per their checking date.

When Locomotive Engineers have made their maximum mileage for their working month, they will advise the appropriate officer of the company in order that relief may be arranged.

BOOKING ON/OFF VACATION

Employees booked off for vacation are not required to book back on. The CMC will automatically book the employee on upon expiration of their vacation and they will be considered available.

All employees returning from vacation will establish their turn at 0001 of the day following completion of vacation.

BOOKING ON/OFF MILEAGE

Employees booked off for miles are not required to book back on. The CMC will automatically book the employee on their mileage date will be considered available as follows:

All employees: 22:01 hours for an on duty time of 00:01 hours.

NOTE:

Employees off for miles must advise the crew dispatcher their desire for extra work while off for miles each and every month they go off for miles.

SHORT TURN – AWAY FROM HOME TERMINAL:

Employees called for a short turn at the away from home terminal will retain their standing at the away from home terminal upon returning from the short turn.

Employees must advise the crew dispatcher that they worked a short turn in order to retain their standing.

SHORT TURN- HOME TERMINAL:

Employees whose regular assignment is in the Manifest, Drag or any regular assigned pools will have their turn go spare should they miss their regular turn due to accepting extra work. It will also go spare if, after completing an extra assignment, they take rest thereby booking rest past the ordering time of their pool or regular assignment. They will however hold their turn in the application of the 18 hour clock should they not be called.

AVAILABILITY LIST:

An Availability list is maintained on a Rotation Basis. Employees wanting extra work must book on the list and will only be removed if they request removal or assume an off board status (example sick or off on vacation). Once removed, they must request to be placed back on the list. An employee missing a call off this list is removed from the list and must contact the C.M.C. to book back onto the list. An employee accepting a call off this list is held off the list for the duration of the assignment and is placed on the bottom of the list on completion of the assignment.

PERMANENT VACANCIES AND NEW ASSIGNMENTS:

All permanent vacancies for Locomotive Engineers will close at 1200 Noon.

Article 49.1 (a) To the Terminal (6 examples) of the 1.1 agreement must be complied with when determining whether to advertise a job to the Terminal or the District.

Article 49.1 (b) To the District (8 examples) of the 1.1 agreement must be complied with when determining whether to advertise a job to the Terminal or the District.

WHEN NO APPLICANTS RECEIVED ON PERMANENT VACANCIES:

In the event a permanent vacancy is not filled by bid or declaration, the Senior Locomotive Engineer not holding work as a Locomotive Engineer in his/her home terminal will be forced onto the vacant position.

DISPLACEMENTS FROM PERMANENT VACANCIES:

Employees displaced from Permanent Vacancies are allowed 48 hours from the time of notification to make their declaration of their choice consistent with the other terms of the Collective Agreement.

Locomotive engineers displaced from a regular assignment and declare to the spareboard, will take their turn from the time of declaration and will be placed on the bottom of the board at that time.

When displacing into the 1st Manifest pool, must displace the junior employee in that pool.

TEMPORARY VACANCIES:

All temporary vacancies for Locomotive Engineers as per article 49.8 (7 days) will close at 12:00 Noon. The successful applicant may miss the first tour of duty. If under rest or working may continue to work but will be pulled if not available for the second tour when called.

If a temporary vacancy for a Locomotive Engineer closes with no bids, the Senior Locomotive Engineer not holding work as a Locomotive Engineer in his/her home terminal will be forced onto the vacant position.

Vacancies created on the spareboard as a result of spareboard locomotive engineers bidding off or going on vacation are filled as follows: as per article 65.23 between mileage checks.

In the event that a locomotive engineer is offered a position of the spareboard and declines, such employee will not be canvassed for future positions on the spareboard for the duration of the Change of Card.

Temporary vacancies that have existed for 4 days due to leave of absence or sickness will be advertised for 7 days as per article 49.8.

24-HOUR SUBSEQUENT T.V.'S:

Subsequent temporary vacancies are advertised immediately (when they become vacant) for at least 24 hours and are closed 24 hours after a spareboard employee has been called.

The awarding of these subsequent temporary vacancies is done 24 hours after a spareboard employee has been called to protect the vacancy and is awarded to the senior applicant with the following EXCEPTION: A subsequent temporary vacancy, in yard service will be awarded to the senior applicant on the 22nd hour. In the event a senior employee claims the vacancy between the

22nd and 24th hour, that employee will be allowed to take up the assignment after the awarded applicant performs one tour on duty. The awarded applicant will be allowed to return to his former assignment. The assignment of the employee claiming the temporary vacancy will then be treated as a subsequent 24-hour temporary vacancy.

In the event there are no applicants for a 24' T.V., the senior E.S.E. not working as such will be assigned.

CLAIMING ASSIGNMENTS THAT WERE NOT ADVERTISED AS EITHER 7 DAY OR 24-HOUR SUB VACANCIES.

An assignment that has gone spare in excess of 7 days or 24 hour sub vacancy that has gone spare in excess of one (1) tour of duty can be claimed by the first qualified locomotive engineer on the working list wanting the same.

Immediately after an assignment is claimed the CMC will arrange to have assignment claimed advertised as a "24-hour sub vacancy". Only the first person contacting the CMC will be permitted to claim an assignment. This 24-hour sub vacancy will close 24 hours after 12:00 of the first day assignment was claimed.

No assignment can be claimed that is under a TV bulletin.

Example 1, An employee claims a job at 08:00 on the 1st of the month, that job is put up for bid at 08:00 and is to close at 12:00 on the 2nd day of the month.

Example 2, An employee claims a job at 16:00 on the 1st of the month, that job is put up for bid at 16:00 and is to close at 12:00 on the 3rd day of the month.

The employee who claimed the assignment will remain on that assignment until the assignment is awarded at 12:00 the day the bid closes.

DISPLACEMENTS FROM TEMPORARY VACANCIES:

Employees displaced from Temporary Vacancies must declare immediately at the time of notification of their choice consistent with the other terms of the Collective Agreement. Employees failing to do so will be returned to their permanent assignment.

When a spareboard employee returns to the spareboard after occupying a permanent or temporary vacancy, he/she will be placed on the spareboard as of the time they declare.

When displacing into any of the pools, must displace the junior employee in that pool. In the displacement of men in the 3rd manifest pool declaration may be made to the junior man in either of the turns 1,3,5 or 2,4,6. The reason being is that this pool does not rotate turns as the 1st Manifest pool does.

ROAD ASSIGNMENTS

1st Manifest Pool (S1) 10 Locomotive Engineers – 3 turns per day

SARNIA TO TORONTO / EXTRA TRAINS TO BUFFALO or NIAGARA FALLS

Pool to operate the first three (3) unassigned eastbound trains straight away service or rescue / relief eastbound trains combination service after 0459 hours daily based on train ordering time. This pool has a catch up feature in which it must get its assigned allotment of 3 trains daily or will catch up the following day(s) until its requirement of 3 is fulfilled. Deadheads are not included in this pool unless mutually agreed to by the Local Chairman and the proper officer of the CMC. If the CMC determines that there may not be sufficient trains to satisfy the pool requirements of allotted trains deadheads may be used after contacting the Local Chairman. First in, first out at the away from home terminal. This pool does not deadhead to Toronto except as the exception noted above. Work trains, snowplows, spreaders or short turns are not included in this pool. Turn rotation is maintained out of Sarnia.

NOTE: Engineers permanently assigned to the Manifest Pool are not permitted to hold temporary vacancies in the 1st Manifest Pool. At the change of card there is no movement permitted within this pool. An employee who holds turn 1 for example cannot be awarded a different turn number at a change of card.

When displacing into the 1st Manifest pool on a permanent assignment, must displace the junior employee in the pool working a permanent assignment.

When displacing into the 1st Manifest pool on a temporary vacancy, must displace the junior employee in the pool working a temporary vacancy.

No trade offs within this pool.

3rd Manifest Pool (S3) 6 Locomotive Engineers – 2 turns per day

SARNIA TO TORONTO / EXTRA TRAINS TO BUFFALO or NIAGARA FALLS

After 1st Manifest Pool gets their three (3) train this pool operate the next two (2) unassigned eastbound trains straight away service or rescue / relief eastbound trains combination service after 0459 hours daily based on train ordering time. This pool has a catch up feature in which it must get its assigned allotment of 2 trains daily or will catch up the following day(s) until its requirement of 2 is fulfilled. Deadheads are not included in this pool unless mutually agreed to by the Local Chairman and the proper officer of the CMC. If the CMC determines that there may not be sufficient trains to satisfy the pool requirements of allotted trains deadheads may be used after contacting the Local Chairman.

This pool runs first in, first out at the away from home terminal. This pool does not deadhead to Toronto except as outlined above. Work trains, snowplows, spreaders or short turns are not included in this pool.

The pool turn rotation is maintained out of Sarnia.

NOTE: Engineers permanently and temporarily assigned to the 3rd Manifest Pool may bid any vacancy within this pool, except their own.

At the change of card engineers may bid to any turn in the pool regardless of the turn they held prior to the change of card. The positions are turn and day sensitive.

In the displacement of men in the 3rd Manifest pool, employees can declare to any turn when displacing a permanent or t.v. No trade offs within this pool.

CATCH UP CLAUSE:

Both (1st and 3rd) Manifest Pools have a catch up clause in the event less than the allotted turns are used any day.

General Info.

With respect to Article 62.6, (Called and Cancelled). If a Locomotive Engineer assigned to the 1st or 3rd Manifest, the Drag Pool or the 330 Pool (S4) is called and cancelled or short turned after being on duty, he/she will have his/her turn considered as fulfilled and dropped and the next turn in the rotation will be used.

DRAG POOL (SD) – SARNIA:

Pool operates any unassigned freight trains and/or (rescue or relief to the away from home terminal) in excess of 100 miles in one direction from Sarnia after allotted Manifest turns have been used. Drag pool to get all deadheads. The pool operates first in, first out at the away from home terminal. Turns are maintained by continuous rotation out of Sarnia.

Number of turns to be determined by mileage check(s) each 10 days and will be maintained each mileage check thereafter between a representative of the Crew Management Center and Local Company officers/ Local Chairman T.C.R.C. or his designate.

NOTE: This pool does not man work trains or short turns of less than 100 miles (one way).

This pool may be required to operate assigned train 330 if Locomotive engineer's spareboard exhausted.

Locomotive engineers missing a call for any of these assignments will not be called for work until the next time they are due out in the rotation.

NOTE: Engineers permanently assigned to the Drag Pool are not permitted to hold temporary vacancies in the Drag Pool. When displacing into the pool on a permanent assignment, must displace the junior employee in the pool working a permanent assignment.

**** Addendum 104 applicable in the SD pool.****

Train 330 (S4 Pool):

Three crews to operate between the hours of 12:00 and 20:00 based on train ordering time. Straightaway service. If train 330 is not operating or delayed crew to be placed in unassigned service between Sarnia and Buffalo.

No Catch up Clause.

Trade offs are allowed in this pool.

RELIEF LOCOMOTIVE ENGINEERS – TRAIN 330 (S4 Pool):

1st available Locomotive Engineer on the slow board available for a 2-hour call.

1st available Locomotive Engineer on the Drag Pool available for a 2 hr call.

NOTE: The Drag Pool may be jacked. Vacant turns ahead of working turn are included and go with assignment and are restored to the Drag pool in sequence when returned to home terminal. *
See Note below.

1st available Locomotive Engineer on the availability list. (Rotation List)-including those off for miles.

Sr. ESE (no letter). This will include any ESE who is held under Article 66.16 of Agreement 4.16, any ESE who is up to declare or any ESE who has missed a call under the 4.16 agreement.

Jr. ESE (letter submitted). This will include any ESE who is held under Article 66.16 of Agreement 4.16, any ESE who is up to declare or any ESE who has missed a call under the 4.16 agreement.

Canvass any qualified Locomotive Engineer (including off for miles)

RELIEF LOCOMOTIVE ENGINEERS – MANIFEST POOLS (S1 - S3)

1st available Locomotive Engineer on the slow board available for a 2-hour call.

1st available Locomotive Engineer on the Drag Pool available for a 2 hr call.

NOTE: The Drag Pool may be jacked. Vacant turns ahead of working turn are included and go with assignment and are restored to the Drag pool in sequence when returned to home terminal. *

See Note below.

1st available Locomotive Engineer on the availability list. (Rotation List)

Sr. ESE (no letter). This will include any ESE who is held under Article 66.16 of Agreement 4.16, any ESE who is up to declare or any ESE who has missed a call under the 4.16 agreement.

Jr. ESE (letter submitted). This will include any ESE who is held under Article 66.16 of Agreement 4.16, any ESE who is up to declare or any ESE who has missed a call under the 4.16 agreement.

Canvass any qualified Locomotive Engineer (including off for miles)

NOTE: Only a Drag Pool employee called out of the Drag Pool can take out more than one turn.

PENALTIES:

Article 54.12

Locomotive engineers assigned to the spareboard who are not available when called will have their names placed at the foot of the spareboard 12 hours after the time at which called.

Article 54.13 applies to spareboard employees who book sick, if they have been off for less than 72 hours, they will not have their names restored to the spareboard until 12 hours after they report for duty, when their names will be placed at the foot of the board.

Article 54.14 applies to spareboard employees who have been off sick in excess of 72 hours; they will have their names at the foot of the board as soon as they report back.

Availability list – dropped from the list.

ESE's – Penalized as per Article 66.15 of the 4.16 Agreement

RELIEF LOCOMOTIVE ENGINEERS – DRAG POOL (SD):

1st available Locomotive Engineer on the slow board available for a 2-hour call.

1st available Locomotive Engineer in the Drag Pool available for a 2 hr call.

NOTE: The Drag Pool may be jacked. Vacant turns ahead of working turn are included and go with assignment and are restored to the Drag pool in sequence when returned to home terminal. *
See Note below.

1st available Locomotive Engineer on the availability list. (Rotation List)

Sr. ESE (no letter). This will include any ESE who is held under Article 66.16 of Agreement 4.16, any ESE who is up to declare or any ESE who has missed a call under the 4.16 agreement.

Jr. ESE (letter submitted). This will include any ESE who is held under Article 66.16 of Agreement 4.16, any ESE who is up to declare or any ESE who has missed a call under the 4.16 agreement.

Canvass any qualified Locomotive Engineer (including off for miles)

NOTE: Only a Drag Pool employee called out of the Drag Pool can take out more than one turn.
